## **CLEAN OPERATIONS FOR CLIMATE PROTECTION**

#### Leader in sustainable aviation

Sustainable Airline Fuel (SAF), one of the key ways to reduce CO<sub>2</sub> in aviation, is already in use in our network. Two landmark collaborations signed by DHL Express with bp and Neste in 2022 are expected to save some **two million tons** of carbon dioxide emissions over the aviation fuel cycle – equivalent to the annual greenhouse gas emissions of approx. 400,000 passenger cars. In this way, we are making significant steps towards our commitment to use **30%** of SAF blending for all air transport by 2030.

Looking even further ahead, DHL is already pioneering next-generation innovations: read more about Alice, the all-electric plane.

# **GLOBAL TRADE AND YOU**

A series of crises has put international trade at the center of the debate about economic growth and resilience. What are the current prospects for globalization and trade? Is there cause for concern? Is trade still an attractive source of growth? We deep dived into the data and conducted a thorough, fact-based analysis – and the results might just surprise you. In partnership with NYU Stern's Center for the Future of Management and its DHL Initiative on Globalization, the '<u>DHL Trade Growth Atlas</u>' examines global trade growth trends and the trade patterns of 173 countries worldwide that combined make up more than 99% of world trade, GDP and population. Despite recent shocks and worsening macroeconomic conditions in much of the world, the study overall gives an upbeat assessment of the prospects for future trade growth.

We know the value of understanding the long-term global trade landscape for navigating shortterm shifts in economic and trade growth. We help our customers make sense of what this means for their business to maximize the enormous potential of globalization and international trade.

Global trade surprisingly resilient through COVID-19 pandemic Trade likely to grow faster in 2022 and 2023 than in previous decade Shift in mix of products traded by advanced vs. emerging economies

#### Packaging

To ensure further protection of your shipment during its transit, we recommend taking advantage of DHL packaging options that meet your requirements best. Upon your request DHL can provide additional packaging materials by pre-order of packaging items in bulk.

When you need documented proof that your shipment has been delivered, DHL can provide a copy of the receiver's signature or delivery confirmation on DHL Express letterhead and either fax or send it to you, whichever is more convenient.

#### **GoGreen Climate Neutral**

This service is for customers who need a reliable method to calculate their annual carbon emissions at a shipment level and subsequently offset these emissions through approved environmental programs. The whole process is verified annually by an independent body accredited by the Société Générale de Surveillance (SGS). DHL can also provide reports for either a high level estimate or a detailed carbon footprint.

#### Adult signature

At Customer's request, DHL will obtain a delivery signature from an adult at the stipulated delivery address. If, for local legislative reasons, proof of the receivers age needs to be verified, DHL may need to request presentation of a valid government-issued personal identification document.

**Paying for Your Shipment** 

## **PREPARING YOUR SHIPMENT: AS EASY AS 1-2-3**

#### Shipment weight

- Please weigh and measure your shipment.
- If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in centimeters, then divide the total sum by 5,000 for each piece in the shipment.
- Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

#### Documentation required: waybill

- All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery.
- Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

#### Documentation required: invoice

- A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable.
- A commercial invoice is used when goods are part of a commercial transaction or intended for resale.
- A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

#### Paying for Your Shipment

## **PREPARING YOUR SHIPMENT INVOICE**

Your invoice will require the following details:

#### **1. BANK DETAILS**

These are the bank details that will be used for the transaction between the seller and buyer. These details are not required for non-commercial/ proforma invoices.

#### 2. DESCRIPTION

Generic or broad descriptions are no longer permitted and are likely to cause delays. Descriptions should include the items, how many there are, what they are made of, and what they will be used for. Describing items as 'samples', 'parts' or 'electronics' is not acceptable for customs classification, safety and security reasons. Instead of 'electronics', for example, use a description such as 'television'.

#### **3. COMMODITY CODE**

This is the product identification code used by the exporting country to classify the goods to be exported. It assists clearance and avoids delays.

#### 4. COUNTRY OF MANUFACTURE/ORIGIN

This relates to the place of manufacture, not the country of export. If items are manufactured in more than one country, please list the origins.

#### 5. TOTAL DECLARED VALUE

This is the total value of the transaction for customs purposes based on the Incoterm selected. The total declared value should include freight and insurance charges if the seller is responsible for these two elements.

#### 6. TYPE OF EXPORT

The options are: (1) Permanent; (2) Temporary; and (3) Repair & Return.

#### 7. INCOTERM

Insert the Incoterm that best describes the terms of the transaction. For example, DAP (Delivered At Place).

## PACKAGING YOUR SHIPMENT

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

#### **Packaging guidelines**

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment's airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment's journey. Please ensure the barcode is flat and not covered by tape, shrinkwrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes
- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary to place the individual pieces on a pallet unless they exceed 70kg. For example, a shipment comprising four 25kg pieces does not have to be placed on a pallet
