DEAR CUSTOMER

Welcome to the DHL Express Service and Rate Guide for 2025. If you are reading this, it means you have a personal or business need to move something, from somewhere, to somewhere and you want it done quickly, securely and reliably.

DHL Express is global market leader in Time Definite International (TDI) shipping and courier delivery, and the most international company in the world. We move over 1 million shipments every working day, from point A to point B in 220 countries and territories, as quickly, securely and reliably as possible. Over 3 million customers around the world put their trust in us, and our team of 116,000 Certified International Specialists strive to exceed their expectations on every single shipment.

2024 was another challenging year. The geopolitical situation in the world remains tense and continues to have a significant impact on logistics. Despite this, our company globally continues to invest heavily in the sustainability of our network. Examples of these investments include upgrading our fleet with eight new Boeing 777 freighter aircrafts, as well as significant investments in carbon-neutral facilities and digital security infrastructure.

These investments work for the future of the DHL network and ensure that we continue to improve the quality of service we deliver to our customers.

The strength of our network helps us stay the Logistics Provider of Choice. Delivering on our commitments to the customers and providing services of high quality - have always been and remain our top priorities.

Sustainability and Digitalization continue to be long-term focus areas and are integral to our corporate strategy. This year DHL Express took further steps in the journey to achieving net-zero emissions by 2050 through increasing our Sustainable Aviation Fuel (SAF) utilization and electric vehicles. With our GoGreen Plus service, you can support your own decarbonization goals your customers are likely already making purchase decisions based on the carbon footprint of your products and services. Give them another reason to say 'Yes' and make a choice in your

Use our digital capabilities to enhance your customers' experience. For example, our On Demand Delivery will give you and your customers greater manoeuvrability at the last mile delivery stage.

We continue supporting Russian exporters. The global e-commerce shows steady growth, and businesses in Russia have new markets for export development. DHL Express remains a trusted partner for exporters, helping them turn local business into global. This guide will give you the information you need to know which DHL Express products, services and solutions meet your logistics needs.

Thank you for trusting us to be your logistics partner!

Sincerely,

Dmitriy Zharkov Managing Director

CLEAN OPERATIONS FOR CLIMATE PROTECTION

Leader in sustainable aviation

GoGreen DHL Express GoGreen Plus is a dedicated PLUS

solution to help businesses reduce the carbon emissions associated with their shipments through the use of Sustainable Aviation Fuel (SAF). GoGreen Plus uses SAF to enable customers to reduce the CO2e emissions associated with their shipments, and is currently supported by three of the industry's largest collaborations with BP, Neste and World Energy.

In contrast to 'offsetting' – where businesses 'neutralize' their emissions through environmental programs - GoGreen Plus is 'insetting'. Insetting's impact is greater because it directly reduces emissions within a company's value chain, resulting in significant reductions in scope 3 emissions. Here is how you can get on board:

- With the GoGreen Plus Basic model, a fixed CO2e reduction (insetting) will be achieved on all your air express shipments.
- In MyDHL+, you can opt for GoGreen Plus and choose which shipments to invest in with SAF.
- Alternatively, choose a **Customized Offer** for a bespoke insetting plan.

Green last-mile and line-haul

Electrify 60% of last-mile delivery vehicles.

Carbon neutral buildings

Design 100% of all new buildings to be carbon neutral.

Green product portfolio

Our GoGreen Plus service allows customers shipping TDI to inset their CO2 air emissions by up to 90%.

ENABLING YOUR GROWTH

We aim to empower our customers' success, not only through excellence and innovation, but also by arming them with research and insights. Discover two tools here that can help you plan for the future.

ARE YOU CONNECTED?

To be successful in today's evolving world, it is crucial to understand trends around connectedness and globalization.

The latest edition of the <u>DHL Global Connectedness Report 2024</u>, released in partnership with New York University's Stern School of Business, revealed a remarkable finding: even in times marked by severe conflict, globalization reached a record high in 2022 and remained near that level in 2023.

Globalization continues

- Despite recent crises, globalization shows no signs of reversing, due to the resilience and growth of international flows of trade, capital, information and people.
- Globalization has not given way to regionalization. Most international flows have taken place over stable or longer distances.

- The world's current depth of global connectedness is only 25%.
- There is still ample room for growth. The world's absolute level of globalization remains limited; domestic flows still far exceed international flows.

LOGISTICS INSIGHTS: SHAPING YOUR TOMORROW

What are the social, business and technology trends disrupting the logistics industry? What do they mean for your business? The <u>Logistics Trend Radar</u> examines increasingly important trends: 40 in all. Two very current clusters emphasized in more detail are **Sustainability** and **Artificial Intelligence (AI)**.

The Logistics Trend Radar looks at Sustainability and the logistics solutions that address this, from Renewable Energy Infrastructure to Sustainable Fuels and more. Special focus is also given to many aspects of AI that influence logistics and the supply chain, from Advanced Analytics, AI Ethics, Audio AI and Computer Vision to Generative AI.

Shape your tomorrow with sharp and timely insights. Take advantage of the Logistics Trend Radar research to discover how you can leverage key trends within your supply chain.

GoGreen Plus

When selected, DHL will reduce (inset) CO2 emissions from air transport through the purchase of Sustainable Aviation Fuel (SAF). SAF can reduce lifecycle carbon emissions by up to 80% compared to traditional jet fuel. GoGreen Plus – Carbon Reduced service, supports Scope 3 emission reductions in alignment with the Science Based Target initiative. The process is audited annually by SGS (Société Générale de Surveillance) to ensure compliance with regulations and standards. Alternative reduction levels and CO2 emission reports are available on contractual basis only.

Dedicated Pickup

If your business needs a dedicated vehicle to collect unusual shipments, or a pickup outside normal business hours, we can arrange this for you.

Dedicated Delivery

On customer request, an immediate or non-routine, once-only delivery of a shipment within a normal working day or a holiday that involves a specific vehicle such as tail lift truck or more than one courier.

Saturday Pickup

In countries where Saturday is not a normal working day, DHL can arrange an ad-hoc pickup of smaller shipments up to 30kg. The service is available at selected postal locations only.

Saturday Delivery

We offer Saturday delivery services to key cities in more than 70 countries.

Shipment Insurance**

We recommend this comprehensive protection for your valuable or personal shipments, giving you peace of mind in the unlikely event of physical damage or loss. The service is subject to specific limitations and exclusions as described in our Terms and Conditions.

Extended Liability

DHL Express always takes the greatest of care with your documents. Unfortunately, accidents can sometimes happen and our Extended Liability service will provide you with additional peace of mind and financial protection. The fixed compensation is 45 000 RUB in case of loss, regardless of document value.

Shipment Preparation

This is a convenient, fast and reliable service for seasonal or irregular shipments that require extra resources for their preparation. DHL manages the entire process of waybill preparation, content selection, labeling and packaging, then sends the shipments to the designated addresses.

Packaging Supplies

Charges apply for all DHL standard packaging items including plastic flyers provided in bulks or stacks.

^{*} For more information on the availability of these services in your location please contact your nearest DHL office. Please make a request for these optional services when booking DHL courier. DHL reserves the right to apply additional charges for these services as well as any not shown in this guide.

OPTIONAL SERVICES*

Verbal Notification

Customer Service will contact you by phone and provide verbal updates on agreed key transport events or incidents with a potential impact on transit time.

Hold for Collection

On shipper request, a shipment is held at the default DHL delivery facility at destination for consignee collection, rather than attempt a delivery at the receiver's address. The service is booked through Customer Service or supporting shipping tools. The destination will notify the receiver when and at which facility the shipment is ready to collect. A consignee cell phone number is mandatory.

Residential Address

Customers shipping to a home or private residence can activate specific delivery options by designating the delivery address as residential. For such shipments, DHL will proactively notify the receiver via email or SMS about the shipment's progress. Receivers can then select the most suitable delivery option via On Demand Delivery.

Direct Signature

If you are sending sensitive documents or high value contents you can request DHL to obtain a direct signature from the consignee or a representative at the delivery address. DHL will ensure your shipment is not re-directed, or delivered at an alternative address.

Adult Signature

Delivery of a shipment to an adult. DHL will obtain a delivery signature from an adult at the stipulated delivery address.

Change of Billing

This applies when a customer requests a change of defined billing information on an already issued invoice, which will result in a reissuing of the invoice and, in case of an account change, crediting of the old account and debiting of the new.

^{*} For more information on the availability of these services in your location please contact your nearest DHL office. Please make a request for these optional services when booking DHL courier. DHL reserves the right to apply additional charges for these services as well as any not shown in this guide.

DUTY BILLING SERVICES

Duty Tax Paid

At customer's request, DHL clears the shipment at destination and arranges for the applicable import duties, taxes and regulatory charges to be invoiced to a specified DHL account at origin or third country, rather than the receiver of the shipment being billed at destination. Charges apply only in case of customs payments, duties and other fees being charged for customs declaration in the country of destination.

Duty Tax Importer

At customer's request, DHL clears

the shipment at destination and arranges for any applicable import duties, taxes and regulatory charges to be invoiced to a specified DHL account at destination. The duty tax payer will be invoiced an extra charge based on a flat rate or a percentage of the fiscal charges that were advanced.

SURCHARGES*

Fuel Surcharge

The jet fuel surcharge will be based on the daily average spot prices for U.S. Gulf Coast (USGC) kerosene-type jet fuel, as reported by the U.S. Department of Energy between third week release of prior month to third week release of actual month.

The diesel fuel surcharge will be based on the daily average spot prices for U.S. Gulf Coast (USGC) Ultra-Low-Sulfur No. 2 Diesel Fuel, as reported by the U.S. Department of Energy between third week release of prior month to third week release of actual month.

For example, the daily average price for fuel from 18th April to 15th May is used to determine the applicable surcharge in June.

The Fuel Surcharge applies to transportation charges on all services and to the following surcharges (where applicable): Saturday Delivery, Saturday Pickup, Elevated Risk, Demand Surcharge, Emergency Situation, Remote Area Delivery, Remote Area Pickup, Dedicated Pickup, Dedicated Delivery, Residential Address, Overweight Piece, Oversize Piece, Non-Stackable Pallet and Non-Conveyable Piece.

DHL reserves the right to change the fuel surcharge index and table with or without notice. Both the amount and duration of the surcharge will be determined at DHL's sole discretion.

Remote Area

If you need to send a parcel or a document to a remote location anywhere in the world DHL will deliver the shipment you need. Special tariffs apply. The list of remote locations is available at express.dhl.ru or on pages 24-34 of this Guide.

Non-Stackable Pallet

This fixed surcharge is applied to every pallet within a shipment that cannot be stacked, either on request by the shipper, or because of its shape, content or packaging. This surcharge does not apply to pallets below 30kg.

Overweight Piece

A fixed surcharge is applied to every piece, including a pallet that exceeds a scale or volumetric weight of 70kg.

Oversize Piece

This fixed surcharge applies to every piece, including a pallet, with a single dimension in excess of 100cm. Does not apply to pieces already subject to Overweight Piece surcharge.

Non-Conveyable Piece

This surcharge applies to any piece within a shipment with an actual weight between 25kg and 70kg. Does not apply to pieces already subject to the Overweight or Oversize Piece Surcharges.

Demand Surcharge

One or more Demand Surcharges will apply to shipments during a period of high demand. A period of high demand is to be determined by DHL at its own discretion but may include a time of high demand for shipping services or a period with high operational cost. Details regarding the application of Demand Surcharges are set forth at mydhl.express.dhl and will be subject to change upon prior notice. Demand Surcharges apply cumulatively if a shipment and/or individual pieces meet more than one of the specified criteria. Demand Surcharges apply in addition to the rates and any other applicable charges.

Emergency Situation

A temporary surcharge, which allows us to cover operating cost increases due to an emergency situation out of DHL's control. Change in market dynamics and air capacity availability is reflected through regular price adjustments. The charge will be applied pro rata based on the chargeable weight (invoiced weight) of a shipment.

Dry Ice (UN1845)

A surcharge is applied when the transportation of shipments involves handling Dry Ice (UN1845) as a freezing agent for non-dangerous goods such as diagnostic specimens. Contractual agreement required.

Biological Substance (UN3373)

Shipments containing Biological Substances Category B (UN3373) or genetically modified organisms as per UN3245 are only accepted in combination with DHL Medical Express. Contractual agreement required.

^{*} For more information on the availability of these services in your location please contact your nearest DHL office. Please make a request for these optional services when booking DHL courier. Lithium Batteries Section II**

Shipping Lithium Batteries with equipment

A service charge will be assessed on Lithium-Ion and Lithium-Metal batteries with equipment. Packaging must be compliant with the appropriate IATA Packing Instruction (PI): 966 for Lithium-Ion and 969 for Lithium-Metal, Section II respectively. Accepted from approved shippers only.

Shipping Lithium Batteries in equipment

Shipments containing Lithium-Ion or Lithium-Metal batteries in equipment are accepted only in compliance with the appropriate IATA Packing Instruction (PI): 967 for Lithium-Ion and 970 for Lithium-Metal, Section II respectively.

DHL will not accept any shipment that is known or suspected to contain defective or damaged batteries.

Address Correction

A fixed surcharge is applied per shipment when the destination address provided by the Shipper is incomplete, outdated or incorrect and DHL is subsequently unable to deliver the shipment. DHL searches and determines the correct address to complete the delivery.

Data Entry

This fixed surcharge applies for each shipment consigned with non-electronic, paper based manual waybills. Electronic shipping documentation incurs no additional charges. Will not be applied when ordering some of additional services. Please check the list of these services: https://express.dhl.ru/en/info/ dop/.

Security Charges

Additional surcharges may apply when shipping to or importing from a destination country where DHL is operating at elevated risk due to continuous state of war, civil unrest, or continuous threats from terrorism (Elevated Risk), or when shipping to or importing from a destination country that is subject to trade restrictions imposed by the UN Security Council or by national legislation such as the European Union or the US Office of Foreign Assets Control (OFAC) (Restricted Destination).

Premium 9:00/10:30/12:00

A fixed premium charge applies to DHL Express 9:00/10:30/12:00 service for international shipments.

Customs Services

CUSTOMS SERVICES

Navigating the customs landscape is made easier by DHL's extensive knowledge and experience of both standard and non-routine customs-clearance processes. Get answers to many of your questions with our new online tool, My Global Trade Services tool, which will help you expand across borders – and concentrate on your core business.

- All non-document shipments require a commercial invoice or a proforma invoice.
- Our customs specialists are ready to provide advice based on about 35 years experience in customs clearance procedures in accordance with Russian customs legislation. For more information on customs services please contact your nearest DHL office.
- Supplementary clearance services are available.
- Customs-related terminal handling services are available

Customs Declaration Services and the Range of Terminal Cargo Handling Services including Loading and Unloading

The whole range of tasks related to arranging customs declaration, including analysis of shipping documentation, establishing of HS Codes, compiling sets of documents, assistance in drawing up standard letters on behalf of the client, drawing up of customs declaration forms, as well as the range of services related to terminal cargo handling, including loading and unloading, and registration and logging of cargo at bonded warehouse storage facilities. Arrangement of customs declaration also includes submission to customs authorities of customs declaration forms, and the full set of documents and records for the goods, and attendance at both customs inspections and clearance, and at the release and return of goods from storage.

Storage of Goods at Bonded Storage Warehouse

There is a single tariff for all cargo moving through DHL network. Payment is not applicable to goods storage on the first weekend or public holidays after arrival, if they fall earlier than on the fourth working day after the cargo has been placed in storage.

Multiline entry

Charges apply when extra lines are recorded on the customs clearance, for example with different commodities or different countries of manufacture.

Specialised Forms of Inspection (veterinary, phytosanitary, DRM, health and safety)

Veterinary, phytosanitary and health and safety inspections are carried out in cases where HS Codes correspond to the relevant control measures. These are obligatory for all goods of vegetable and animal origin, as well as those goods in direct contact with humans capable of causing harm to health.

DRM – is the control of fissile and radioactive materials. This service consists of the receipt of the requisite documentation from the state supervisory authorities.

Export Declaration

Applies in countries where an export declaration is required for shipments containing controlled commodities or exceeding a certain value threshold or weight. Where automated export

systems are available to the public, shippers may avoid the charge by submitting the export declaration online. In case of IMP billed shipments DHL will submit the export declaration in order to accelerate the export at origin and pass the charge to the importer's account.

Arranging Preliminary Inspections

This is carried out where applicable for the purposes of identifying the load, ascertaining the quantity, weight, name and intended use of the goods. The preliminary inspection is necessary for the assignment of the correct HS Code for declaration of the goods to the customs authorities. It is applicable in instances where accompanying documentation lacks sufficient information required for customs declaration of the cargo, where discrepancies with the goods records declared in the shipping documents have been previously discovered.

Adjustment of information in Customs Declaration (per Customs Declaration)

DHL provides the service of compiling the adjustment to customs values document.

Representing of Represented Entity within additional control of functional departments of Customs

Representation of client's interests at conducting of inspections of declared records by customs authorities departments. Required in cases where terms for approval, or of a decision taken, have been entrusted to specialized customs departments. For example confirmation of HS code or approval or determination of goods' customs value etc.

Preparation of the set of documents

Preparation of the set of documents (beyond the scope of standard documentation), required for declaring goods to the customs authorities.

Examples:

- Research and preparation of technical description for goods;
- Preparation of translations;
- Maintenance of database for client's goods;
- Compiling invoices and translating their contents.

Receipt of Confirmation from Border Customs Officials of De Facto Goods Exportation

Presentation of goods to border customs officials, receipt and dispatch to client of written confirmation of de facto exportation in cases of export.

Applicable on request of the client only for cargo subject to individual goods declarations.

Physical Intervention

A surcharge applies for shipments intercepted for physical examination by customs authorities. Arrangements for inspections may also include full or partial unloading of a vehicle, the specific marking of prototypes, mutilation of samples or the examination of shipment content.

Paying for Your Shipment

PREPARING YOUR SHIPMENT: AS EASY AS 1-2-3

Shipment weight

- Please weigh and measure your shipment.
- If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in centimeters, then divide the total sum by 5,000 for each piece in the shipment.
- Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

Documentation required: waybill

- All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery.
- Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

Documentation required: invoice

- A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable.
- A commercial invoice is used when goods are part of a commercial transaction or intended for resale.
- A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

PACKAGING YOUR SHIPMENT

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

Packaging guidelines

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment's airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment's journey. Please ensure the barcode is flat and not covered by tape, shrinkwrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes
- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary to place the individual pieces on a pallet unless they exceed 70kg. For example, a shipment comprising four 25kg pieces does not have to be placed on a pallet

DHL packaging

We offer a range of high-quality DHL-branded packaging items, suitable for shipping items of all shapes and sizes.

The items available include:

Our website provides a comprehensive guide to DHL Express shipping services, as well as transport news, service updates and contact details. To make doing business with us even easier, the site features interactive tools that include online booking, tracking and a volumetric weight calculator.

ROBOTICS

Driven by rapid technological advancements and increasing supply chain complexity, robotics solutions are entering the logistics environment, boosting productivity and driving zero-defect processes.

Robots are adopting more roles at DHL Express, assisting workers with the most repetitive and labor-intensive tasks and freeing them up to do higher-order, customerfacing activities. Examples include the use of articulated robotic arms for inducting flyers and small parcels at 99.99% accuracy, ensuring faster processing and fewer mis-sorts. We have four such robots in use globally, with plans for more in the future.

Our robots help connect your shipments through our network at higher speed and quality, by giving operations extra help.

DIGITAL TRUST

Logistics requires transferring data and content around the world and we embrace a responsibility to do this securely. Our standards led by our Binding Corporate Rules and by our <u>Data Privacy Policy</u> apply throughout the DHL Group and are approved by the Supervisory Authorities. We maintain a comprehensive <u>Information Security</u> and <u>Data Protection</u> approach based on ISO/IEC 27001:2013 and GDPR, to ensure a high standard when managing customer information assets and personal data. We aim to provide a rapid response to any security incident via our 24x7 Cyber Defence Centre (CDC) with global coverage and our global DPO community.

DHL Group acts as controller in respect of any personal data it receives from customers and holds to effectively provide transportation services and in regard to the delivery of any shipments or documents that it processes to perform its contractual obligations. DHL Group will act as a data controller when an individual is executing their rights under privacy legislations.

Calculating the rate:

- 1. Check the destination countries available for this service in the table on pages 22–23.
- 2. Using the table "Rating Zones" on pages 24–34 identify Russian rate zone for your location.
- 3. Identify rate zone number of the destination country in the table on pages 22–23.
- 4. Reading across numbers of rate zones for origin location and destination country using a table "Rate zones for international delivery" on page 20 identify rate zone.
- 5. In the table on the page 35 indicate the weight nearest to the weight of your shipment.
- 6. Reading across from the weight indicator to rate zone will give you the rate for sending your shipment.

Example:

To send your 7 kg parcel using DHL EXPRESS Worldwide from Ekaterinburg to China:

- 1. Check whether the service is available to China. The answer is yes.
- In the list of served locations identify rating zone for Ekaterinburg. It is zone 13.
- Identify zone number for China. It is zone VI. 3.
- In the table «Rate zones for international delivery» the intersection of Russian rating zone 13 and international rating zone VI gives zone 4.
- The intersection of zone 4 and 7 kg weight in the table on the page 35 shows the rate.
- The rate for your shipment is 53 330 RUB.

DHL's shipment charges are calculated according to the higher of actual or volumetric weight of each cargo place. The weight shall be rounded up to the value divisible by 0.5 kg (for weighing less 30 kg) and 1 kg (for shipments weighing more than 30 kg). For example: 2.1 kg shall be rounded up to 2.5 kg, and 31.2 kg shall be rounded up to 32 kg. Attention! The minimal chargeable weight for the delivery of documents with no commercial value at DHL EXPRESS WORLDWIDE EXPORT rates shall be 0.3 kg. For all other shipments the minimum chargeable weight is 0.5 kg.
 All rates are stated in roubles exclusive of VAT and fuel surcharge. Rates for specific weights not shown in the table above are available on request in your nearest DHL office. DHL is entitled to change its rates on its sole discretion.
 Shipments qualified as "Documents" shall mean "Express documents" with no commercial value. Shipments which are not qualifying for "Express documents" are to be "Other shipments". Please be advised that "Documents" and "Other shipments" definitions are subjects to legal requirements of the country of destination.
